This form is to be used when a student cannot provide documentation of their homeless status. Please be aware that we may not ask a student to explain, clarify, or justify their circumstances. We are just making a determination of their status. Limit your inquiries to *whether* the applicant has been determined to be homeless, not *why*.
General questions to ask the student:

1. Have you used any third party resources such as private or publicly funded homeless shelters or service providers? If applicable, address why a student marked yes to any questions on the FAFSA regarding homelessness.
2. What is your current living situation and when did this situation begin?
3. Where are your parents currently?
4. Is there anything else that the student would like to add to help support this statement?
